

Peregrines Homework Grid Summer Term 1

Homework can be presented to your class every Friday.

Rainforest in a box

Time to get creative! Create your own rainforest in a box. Included all the different

layers and the plants and creatures you might find there.

Art

Create a collage using recycled materials.

Maths

Make a paper plate clock. Remember to include the hour and minute hand. Use your clock to practise telling the time.

Save Our Rainforests!

Create a poster to help encourage people to save the rainforests and say no to deforestation.

Time log

Record the times of key events across a day. For example, when you wake up, mealtimes, your journey to school, hobbies, time asleep. You can choose to display this how you wish. It could be a list, diary or even a graph of how you spend your day.

Have fun completing your homework. You can bring the completed homework in to share or send pictures via dojo. Don't forget to keep reading EVERY day and ask an adult to sign your reading record. Keep practising your times tables.

Build a Microhabitat in a Jar

Create a small microhabitat using things like; soil, moss, leaves and small sticks.

Observe how it changes over the week and record daily changes.

Persuasive Writing

Have a go at your own persuasive speech to help save the creatures of the rainforest.

Inspired cooking

Try your hand at a recipe that uses something we get from the rainforest. Examples- something chocolatey as Cocoa beans come from the rainforest Something fruity- there is a variety of fruits that grow in the rainforest

Rainforest animals

Research about animals which live in the Rainforest and produce a fact file about them. Include pictures and interesting facts.

Symmetrical Rainforest Butterflies

Great a piece of artwork showing a symmetrical butterfly. Remember symmetrical means the same on both sides.
